

What occurred today does not fix what said
by Solis to Troy Landry.

By removing all County Executive appointments, and having no intention of appointing new members is disingenuous to the community as a whole. There should have been a removal of the leadership and appointments of those that want to continue the work of the REEC. There are plenty of qualified residents that have applied and were passed over for whatever reasons. Running away from the problems doesn't fix what needs to be fixed.
